Title: Beady Foam Turtle

Materials Required:

1. Green & Yellow Fun Foam
2. Blue & Yellow cabochons
3. 8x10 double Tape Sheet
4. Diamond Beadlets
5. Kreinik Dimensional Threads: Gold Braid Assortment
6. Scissors
7. Knife

Procedure:

1. Trace the shape of turtle, shell, legs and tails onto the green and yellow fun foam. Cut them out carefully.
2. Use a sharp edged knife to cut out the holes in the "shell" layer of the pattern
3. Peel back the white back side of your double tape and place the yellow body layer on the tape.
4. Take another shape and repeat to apply tape to the second side.
5. Press from the center with your fingers to smooth out any air bubbles
6. Place the cut out feet and tail pieces on the tape, and then align the yellow body shape with the bottom green shape. Press to adhere firmly.
7. Now take both the body piece and shell piece and tape them together.
8. Use your gold threads to make a pattern on tortoise "shell".
9. When finished, press all threads firmly into the tape.
10. Place your design in a tray or ziploc bag and pour beadlets over the exposed tape.
11. Cover fully. Tap to remove excess beadlets.
