Title: Making smoke prints of leaves

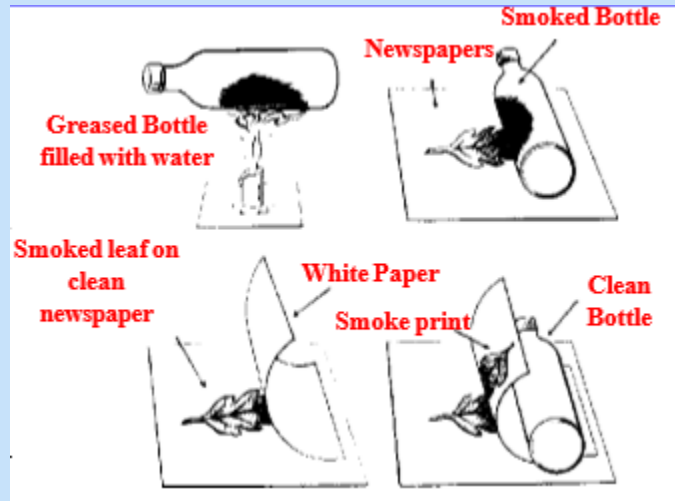

Challenge: Can you make a smoke Print of Leaves?

Materials Required:

1. Leaves
2. Round bottle with a cork
3. Grease or Vaseline
4. Cold water
5. Candle
6. Newspaper
7. White paper
8. Roller

Procedure:

1. Grease the smooth side of the round bottle with a thin layer of grease or Vaseline.
2. Pour cold water into the bottle and cork it tightly.
3. Light the candle. Hold the bottle over a candle flame until it is covered evenly with soot.
4. Place a leaf, vein side up, on a newspaper and roll the sooty bottle over the leaf.
5. Remove the leaf and lay it vein side up on another newspaper.
6. Place a white paper on the leaf.
7. Roll over the white paper and leaf with a clean round bottle or other roller.
