

# Zedua Experiments

**Title:** Making spatter prints of leaves

**Challenge:** Can you make a print of Leaves?

## Materials Required:

1. Leaf
2. Sheet of white paper
3. Pins
4. Thumb Tacks
5. Small Pebbles
6. Toothbrush
7. Poster color or Indian Ink

## Procedure:

1. Place the leaf on a sheet of white paper and flatten it with pins, thumb tacks, or a few small pebbles.
2. Take an old toothbrush and dip it in poster colour or Indian ink.
3. Hold the brush over the paper and spatter the material from the tooth brush around the leaf by carefully drawing the blade of a knife over the bristles.  
Note: Do not use too much colour or ink.
4. When the colour has dried remove the leaf.

Try using white color on various colored papers.
